Why You Can Depend Upon Our Peonies

We grow for root production only.

We send out strong 3-5 eye divisions with splendid root-system, from 2 or 3 year old plants . . . no old roots.

We propagate from healthy roots only.

All plants guaranteed true to name.

Baroness Schroeder

(Rates 9.0). One of the finest cut flower Peonies. Opens a baby-pink, turning to a pleasing white. Excellent keeper and a steady money maker for the cut flower grower.

BUSINESS TERMS: Approved credit 2% ten days, 60 days net. 3% for cash with order. Unknown correspondents please send cash or satisfactory references.

All offers subject to change without notice. We take strict care for correctness of label. Should any stock prove untrue, damages shall not exceed price originally paid for stock.

TREE PEONIES (PAEONIA ARBOREA)

Because of their novelty and exquisite beauty, Tree Peonies are rapidly becoming one of the money makers for nurserymen, florists and seedsmen. Tree Peonies bloom earlier than ordinary Chinese Peonies and their flowers are of immense size and possess different colors than ordinary peonies.

We have gone to great expense to secure the world's finest varieties and believe we possess one of the finest stocks of Tree Peonies in the world.

For detailed descriptions and cultural notes please see our descriptive catalog. As we grow most of our Tree Peonies in 5" pots, we can deliver them almost any time of the year and assure splendid results.

The plants we offer here are from 5" pots, 2 years old. They are established in the pots and transplant with perfect safety.

FORCING OF TREE PEONIES

Unlike Chinese Peonies, Tree Peonies force easily. We often have blooms on one year grafts and when placed in cool house with heat gradually increased they can be had in bloom from January on. We believe there are possibilities in Tree Peonies for the florist.

PEONIES FOR ALL SUMMER USE

This photograph shows Peony blooms and Snowberries together. As you know, Snowberries do not come until late September. It shows the possibilities in Peonies from Storage. The blossoms in this picture lasted for three days and were in nice shape.

If you are a florist might say that a planting of Peonies pays for itself many times over by keeping the blooms in storage and taking them out as the need arises. Almost every community has a storage suitable for this purpose and room can generally be had at little expense. We will be glad to give you further information on this subject.

REINE HORTENSE: (Syn. President Taft). An exquisite cut flower variety. Good stem, good bud and fine color. Light Hydrangea-pink. Blooms midseason. This variety, together with Sarah Bernhardt and Baroness Schroeder are today the most popular cut flower peonies.

DOUBLE PEONIES (PAEONIA CHINENSIS)

Large Quantities: Sometimes on large quantities we can make a better price than listed. Therefore, we shall appreciate the opportunity to quote on

larger quantities. Send us your list of requirements.

FOUR COTTAGE GARDENS INTRODUCTIONS (1935-1936)

Although for many years we have a great number of Peony Seedlings under observation, we do not release any unless they have proven of outstanding value. The following were released by us last year, and we can strongly recommend them.

Each

RIO GRANDE, Stem three feet tall, straight and erect. Foliage dark green, the flower is very double, intermingled with a few stamens, hiding between the large petals. Color a uniform and shiny dark red which does not turn blue. Midseason..... \$12.50

ECSTASY, an exquisite Japanese Peony. A double row of guard petals of the finest satiny pink with a heavy comb of short, yellow petaloids with 3 small seedpods with pink stigma. An ideal Japanese cut-flower. Good keeper. Midseason

12.50

SMILES, unusually large flower. Stem tall and erect, does not need support. Outside petals light mauve with a regular collar of yellow petaloids, darker at the base. Center petals broad and of the same color, gracefully built flower, very full and double. Midseason to late, each.....

7.50

COUNTESS MARITZA, tall grower, deep green foliage. Opens very soft pink, changing to white, yellow at the base. Yellow stamens hiding between the petals. When just open, a light havana color at the base. One of the most perfect rose shapes. Perfect bloomer, early
